

The Mayor's Message

“Formulating the Tbilisi Vision is a celebration of our identity as a city and an exploration of our relationship with the rest of the world.

Tbilisi starts its historical journey to accomplish its destiny as a global city.”

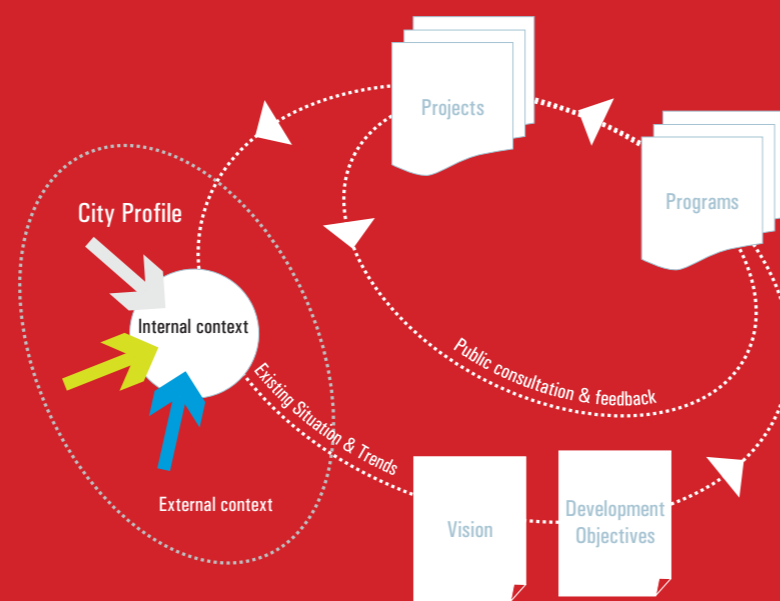

A GLOBAL CITY FOR GLOBAL PARTNERS! TBILISI VISION 2030

A full scale city development strategy has been launched in Tbilisi, with technical and financial assistance from the Cities Alliance Program, supported by the World Bank, UNDP, GTZ and UNEP. The objective of the CDS is to collectively define the city's vision and the mid-to-long term goals in a competitive world, and identify the city's highest priorities and investment needs.

The CDS for the capital of Georgia helps to anticipate future shocks and rapidly changing contexts and raises its understanding of how stakeholders would respond under various development scenarios. On the other hand the strategy enables Tbilisi to anticipate the rate, type, and physical direction of growth and to develop infrastructure ahead of growth.

The CDS creates sustainable mechanisms for stakeholders' consultation and public inputs into the decision-making process. The CDS builds on, and maintains the city's cultural heritage and economic assets, opens the door for the new initiatives and serves as the base for development activities in a sustainable manner.

CDS Process

A GLOBAL CITY FOR GLOBAL PARTNERS! TBILISI VISION 2030

Challenges facing Tbilisi for 2030

- Create increased connectivity, transit options and transversal transparency of the city
- Diversify and expand employment opportunities through local and international partnerships
- Increase the attractiveness of Tbilisi through the expansion of sustainable services for citizens, businesses and visitors
- Continue the development of modern governance and performing city management

Tbilisi Vision

Tbilisi, a world-class metropolis adapting to global challenges, a dynamic and trustworthy business partner, offering high quality living within a sustainable and well-managed environment

A GLOBAL CITY FOR GLOBAL PARTNERS !
